*“Raising the pride and dignity of
the underserved through quality
dental services.”*

In 1991, Dr. Jay Grossman—a dentist, philanthropist, member of the United States Navy Dental Corps, and father, founded *Homeless Not Toothless*, opened his office doors to build his own private practice, and began treating the homeless and underserved by raising their pride and dignity through quality dental services.

Our vision today is to provide a free dental clinic for Los Angeles County's 28,000 foster children in need of proper dental care. Our hopes are to encourage the health, care, and support that each of these children deserve through a well-structured community of doctors and dentists. We are looking to raise \$2 million in funds this year to support our programs and services for the thousands of foster children in need. With your help, our project can be realized and we can continue to provide health care for our children.

Since its inception, *Homeless Not Toothless* has provided over \$2 million in services for this population. The dentists who volunteer their time either pay for laboratory expenses themselves or work with labs who donate dental work as their way of contributing to this cause. In addition, the dentists and staff who work with the homeless patients do so without any financial compensation and with only the kindest and most generous of hearts.

To spread awareness of this mission, *Homeless Not Toothless* will host a benefit celebrating the work of individuals that have shown outstanding commitment and dedication to improving the lives of those around them. The intention is to generate the funds necessary to provide essential care, and bring donors to the table to help make Dr. Jay's vision a reality.

WHEN:

September 10th, 2009
Reception starting at 6:00pm
